

**436th Medical Group  
Pharmacy Formulary  
Dover AFB**

**EDITION: 2013**

Dear Pharmacy Patron:

The 436th Medical Group, Dover Air Force Base Pharmacy dispenses medications to all DoD eligible patients. In order to improve service to our patients and their practitioners, we have prepared this guide of medications routinely stocked and some of our important pharmacy dispensing policies. Section I of this guide is the medications organized alphabetically by generic name and Section II is organized by medication category. Please note that medications are often added to and deleted from this list so please call the Pharmacy at 302-677-2019 to ensure we stock the medications you are looking for.

1. Prescription Policies:

- a. All prescriptions are filled with a generic equivalent if available. If a generic product is stocked or available, the pharmacy will not honor prescriptions that are marked or signed “Dispense as Written” or “Do not substitute”.
  - b. Prescriptions must be written legibly in ink or typewritten. **The prescriber’s signature must be signed in ink on all prescriptions.** Stamped signature prescriptions for ANY controlled substances will not be honored. Any changes made on the prescription must be corrected by crossing out the error and re-writing the information. In all cases, **the prescriber** must initial changes made to the prescription.
  - c. Controlled substances should be written on separate prescriptions from other medications. The provider’s DEA number must be on all prescriptions for controlled substances. Schedule II prescriptions must be filled within **seven days** of the date written per Delaware law. Quantities of controlled substances in Schedule III-V may not exceed a 60 day supply (local policy). Quantities for Schedule II’s may not exceed a 30 day supply (DE Law). Methylphenidate, Dextroamphetamine AND similar drugs may be dispensed for a 90 day supply when ADD or ADHD is specified. The pharmacy will not fill prescriptions for controlled substances written by prescriber’s for themselves or their family members.
  - d. Prescriptions from civilian practitioners for eligible beneficiaries will be honored provided the prescribed medication is routinely stocked. We strongly suggest that all medications be written on separate prescriptions to prevent any inconvenience if a medication is not stocked or cannot be filled at our pharmacy.
  - e. The Pharmacy **cannot** accept new prescriptions or refill authorization via telephone or fax.
  - f. Quantities of maintenance medications are limited to the quantity written on the prescription, up to a maximum of a 90-day supply. Please limit “PRN” medications to a quantity sufficient for an episode of care and add refills as necessary. Pharmacists will adjust refills on maintenance medications to conform to the dispensing limitations. Per Federal Law, prescriptions for non-controlled medications expire one year from the original date and six months for controlled drugs.
  - g. A valid **Military ID** and a **current “other health insurance” yellow card** must be presented when dropping off and picking up prescriptions.
2. Hours of Operation: Mon-Fri 0730-1700. The pharmacy and the 436 Medical Group will be closed all Federal Holidays, special Family days and on the 2<sup>nd</sup> Tuesday of every month the clinic hours are from 0730-1200 for necessary training in the afternoon. Please listen to the pharmacy phone message for upcoming closings and normal schedule changes.
3. Telephone Numbers: (302) 677-2019
4. 24-hour Refill Line: (302) 677-2533 or (800) 831-7944
